Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussion of the previous rejection including differences between applicant's invention and Weder and Gilbert respectively. Applicant was advised to incorporate further structural limitations into the claims in order to overcome the rejections including positively claiming the different areas, lines, etc. of the wrap instead of a general appearance to be obtained by a folding sequence that is to be performed by a user. Furthermore, applicant presented arguments against obviousness and it was advised to enter such arguments as an affidavit to be entered into the record.
